## Product Catalog 2024

Easy solution to upgrade old or new skateparks

 @rio.psrtv

@amaputtheblazeonyou, BS Crooked, Pilsen

Modular slappy curb kits and custom products

# What Why Where ?

## Crazy RoadWalls

Road wall isn't proper English (yet) but it was the inspiration for Finnish slang word **rotvalli** meaning curb. The following catalog introduces our various crazy shapes – thus the name.

## Durability

World needs more durable curbs for skateboarders. Our curbs have **performed well** and survived our first season perfectly.

## Modularity

Our products are like **Lego blocks**. We make the blocks you make the design. If the budget is tight – buy some now and expand later.

## Design

We designed the curbs so that they would serve as many skaters as possible. We made the other side **mellow** for easier access while the **steep** side serves more experienced skaters.

## Community building

Skateboard scene stays creative because of the active community! It's our turn to give back. We believe that the most interesting and creative result follows **co-operation**.

## Akaa, Finland

Is the place where the **magic** happens.

# STRAIGHTS

## #1 The Straight Block

2 m

Our flagship

Long straight curb

Simple yet beautiful

BONUS

Custom lengths by request

# CURVES

## #2 Inner Curve

Curves unlock  
a new dimension for the curb  
game!

Mellow side  
running on the inner side

## #3 Outer Curve

### Snakes

for the win!

Combine with inner curves  
Don't end up in a

### Circle

## #4 Loose Inner Curve

### Relax

Gentle enough to be placed  
one after another to form long inner curve

#5 Inner fold

Sharp

change of the direction!

FOLDS
